

GRID Alternatives SOLARTHON 2007

Install Six Solar Electric Systems in One Day!

About Solarthon 2007

With energy costs continuing to rise, and the environmental costs of our current energy sources becoming clearer every day, the time is now for solar power in our community. Join GRID Alternatives for SOLARTHON 2007, our annual one-day event to raise money and awareness for community solar power, help fight global warming, and bring energy savings to low-income families. Teams of volunteers will be installing six solar electric systems for low-income families at Habitat for Humanity East Bay's newest development in Oakland.

When: Saturday, October 6, 2007, 8:30am-4:30pm

Where: 10900 Edes Avenue, Oakland

About GRID Alternatives

GRID Alternatives empowers communities in need by providing renewable energy and energy efficiency services, equipment and training. GRID Alternatives trains teams of community volunteers on solar electric technology and installation, and then leads these teams in providing free solar electric installation for low-income families. We work in partnership with many Bay Area cities and counties, as well as nonprofit groups such as Habitat for Humanity. GRID Alternatives has installed over 70 solar electric systems for low-income families over the last 3 years, and we're on schedule to more than double that number over the next 12 months. We are both a local nonprofit organization and a California licensed electrical contractor, and all of our installation projects are fully warranted, fully insured, and always supervised by experienced professionals.

CORPORATE SPONSORSHIP OPPORTUNITIES

Becoming a Solarthon sponsor is a great way to demonstrate your company's commitment to sustainability and community, and to involve your employees in a fun and educational team-building project that provides tangible, long-term benefits to low-income families and the environment. Solarthon 2007 offers a range of sponsorship levels:

Full Team Sponsor: \$5,000, option for up to 15 employee volunteers

Half Team Sponsor: \$2,500, option for up to 8 employee volunteers

Basic Sponsor: \$1,000, option for up to 3 employee volunteers

Sponsor benefits include:

- Sponsor name and logo publicized both at the event, on participant T-shirts, and online
- Positive publicity of your participation through media coverage of this one-of-a-kind event, and through photographs of your employees installing solar panels
- Full Team Sponsors will have a solar home "branded" with their logo during the event, and will also be featured in our media outreach campaign.
- Free solar training at your offices for your volunteers and other interested employees
- Connect with younger, environmentally-conscious consumers, clients and employees
- Fight global warming while protecting local low-income families from high energy costs

Contact Zach Franklin, Development Director, at (415) 839-8437 or zfranklin@gridalternatives.org for more information on becoming a sponsor.
